

# JACK OF ALL FRAMES

WHIMSICAL + MASTERFUL WEDDING & ELOPEMENT PHOTOGRAPHY

## A NOTE ON ANALOG FILM

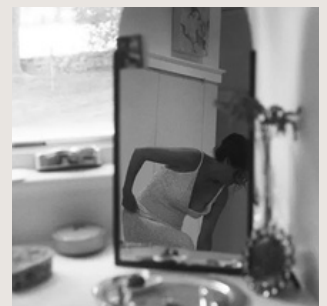

I'm thrilled you're considering analog film to document this magical moment in time. Call me biased, but nothing compares to the whimsy and texture your film photos will capture. Analog film is a craft art, meaning it requires physical roles of film and a chemical development process. I am passionate about this at times costly medium being available to all couples. As such, please note that the prices you see below are all *inclusive*, meaning they include tax, the cost of film, development, scanning, and high resolution files. No hidden costs. Excited about the craft nature of film? I'm happy to mail you your film negatives to an address within the contiguous 48 states upon request.

---

## TURN AROUND TIME

Let's be honest, you'll be itching to relive your special day and explore your whimsical gallery. Turn around time is a top priority. Galleries will be edited and delivered within 30 days. If you purchase social media add-ons, these will also be delivered within 30 days. Please allow an additional 90 days for design and production of photo books and art videos.
